Interaction Design & Construction

“Your Trusted Expert”

Since 2011

ABOUT US

Interaction Design & Construction was founded in February 2011 with the goal of providing skilled and knowledgeable consultancy & construction services to industries in the Bangladesh. Interaction Design & Construction is a prominent and well-respected consulting firm in the architectural, structural, electrical, fire safety, Interior, IT service, management and others. We have an Employee/Management base of over 20 highly skilled trades-people and professionals providing services to a large and varied customer base in the Bangladesh.

IDC is committed to providing innovative and cost-effective solutions to our customers on time, on budget and safely. IDC is a reliable contractor operating with integrity and loyalty to customers, suppliers and employees. Our hand-picked management team of project managers, field supervisors and administrators are backed by computerized state-of-the art systems and systems engineers.

IDC MISSION STATEMENT

We set our business targets with high degree of professional standard with appropriate business and ethical code where services must consider to make living safe by create value with difference and to adopt sustainable practice for a better world.

IDC VISION STATEMENT

To acquire iconic recognition by the national and global acceptance of our provided services and products which define safe living through quality and sustainability.

MISSION & VISION

KEY PERSON

We are one of the fast growing engineering, construction, supply chain management and design consultancy services firm employing over 20 skilled professionals and administrative support staff.

Our aim is simple - we want to be the best. Within the IDC family, we want to be one of the leading operating companies.

*We want to be seen as the company of choice by our Clients as their **"Trusted Expert"** But even more, we want to be considered their trusted advisor, capable of delivering a product on time, on budget and we hope, beyond their expectations.*

We recognize that behind each of our success project, the expertise and efforts of our employees is the key. So, we ensure that they treated fairly and the more opportunities for career growth and prospects development are well rewarded as per our commitment.

Engr. Md. Abdus Salam Sazid

Chief Executive Officer (CEO)

B.Sc. in Civil Engineering, MIEB

ADVISOR

(Engr. Hafizur Rahman Munshi, a freedom fighter, was a former chief engineer of Public Works Department from 1st January 2016 to till June 10, 2016. He served as the chief engineer at Rajuk (2014-2016) earlier. He graduated from the Civil Engineering department at Bangladesh University of Engineering and Technology (Buet) in 1980.)

It is my pleasure to welcome you for our website.

There may be many challenges ahead of us, but I am sure that we will overcome them with the help of both of our experienced and young energetic technical member and staff. I am sure that our engineer and staff will continue to do their best to provide the highest quality of work to our clients, to produce outstanding goodwill, and to serve our dignity, community, and profession. I invite you to continue to support our company and to take an active role in its excellent journey and research endeavors.

Engr. Hafizur Rahman Munshi
